

PROCEDURE OF MOTORS DISTRIBUTION, HANDLING AND STORAGE

- Upon the arrival and registration of the national teams, motors will be distributed to the Team managers according to the requested quantity and type specified on the Motors Order form. (deadline is 15th of March 2024.)
- It is a duty of the Team manager to pack and lock all ordered motors to their national team storage boxes provided by the Organizers. Keys of each box locks will remain with the Team manager until the end of Competition.
- The further handling and storage of team's motor boxes will be done by the Organizers. Boxes will be at team's disposal at the starting place.
- At the end of the Competition all remaining motors may be collected by the appropriate Team manager once the keys are given back to the Organizers.

Important:

- Every team can order a maximum of 5 motors for each competitor in every class where they have a registered competitor. This does not apply to the class S7 and S8!
- Motors used for the training flights prior to the competition should be brought along and are of free choice of each team.
